

GAUGE VALVES GC400

DESCRIPTION

The ADCA GC400 gauge valves were designed for mounting of instruments such as pressure gauges, transmitters and switches. Throttling of the valve protects the connected instrument against pressure spikes. Complete valve shut-off and pressure release through the integrated vent plug allows safe instrument removal for replacement or calibration procedures.

MAIN FEATURES

Integrated vent plug.

Designed and tested according to DIN 16270.

OPTIONS: Version for oxygen service.
Other sizes, materials and connections.

USE: Saturated steam, water, compressed air and other fluids compatible with the construction.

AVAILABLE MODELS: GC400 – carbon steel.
GC400i – stainless steel.

SIZES: 1/2" x 1/2" (male x female).

CONNECTIONS: ISO 228.
Others on request.

INSTALLATION: Any position.
